Caleb Bragg, another millionaire driver of a Flat car, was a sturdy competitor in the battle for supremacy, and finished fourth, about twenty minutes behind the winner. He made numerous tire changes, and in the latter part of the contest was forced to change mechanicians.

In the early part of the race first one driver and then another took the lead. Patchke, in a Marmon, led the race in the seventh and eight laps, but developed steering gear trouble, which latter resulted in his retirement. In the ininth lap Eddie Hearie went to the front, and steadily maintained this position for nearly 200 miles. In the twentieth lap Bruce-Brown passed the Benz driver and took the lead, and practically held it for the remainder of the race.

In the throng which greeted the victor there was none more happy than his mother, Mrs. R. A. Brucc-Brown, of New York, who was an anxious spectator of the wonderful race. She was the first at his side when her son parked his machine after the race was won. Not waiting for him to get out of the car, she rushed to him and throwing both arms around his neck, kissed him several times.

Eddle Hearne, the young Chicago millionaire, was keenly disappointed at losing a victory so nearly within his grasp, as this was his last race. Since Mr. Hearne entered for the Grand Prize there has been born to him a son and heir, and he promised his wife that he would retire from the racing same after this contest and would never again take a risk of leaving his boy fatherless.
